

Table 1. Curricular resources for teaching state math and ELA standards in 2015-16

	Math	ELA
My state provided me with curricula/curriculum frameworks	38%	39%
My district provided me with curricula/curriculum frameworks	77%	74%
My school provided me with curricula/curriculum frameworks	29%	29%
I developed or revised curricula myself or with other teachers, or adapted curricula from online resources or existing materials	50%	54%

Table reads: Of the public elementary school teachers who reported teaching their state's current math standards in 2015-16, an estimated 38% said their state had provided them with curricula/curriculum frameworks for teaching the standards.
